

MAGNETIC PICK-UP TOOL SET USER INSTRUCTIONS

*We've worked very hard on making this guide useful, simple, and understandable.
Please read it carefully, and keep it safe for future reference. Cheers!*

- ✓ In the package, you should find 1 telescopic magnetic pick-up tool, and 1 pick-up claw. If there's anything missing, please let us know by dropping a message to wecare@nocry.com, and we'll be right on it.
- ✓ **Do not lift or pull items that are too heavy for the pick-up tools.** The magnet is designed to pull a maximum of 16lb (7kg) of weight horizontally and lift a maximum of 5lb (2kg) vertically, while the claw - 5lb (2kg) in both directions. Exceeding these weights will cause damage to the tools and shorten their lifespan.
- ✓ **Do not extend or retract the tools too hard**, as this might damage them.
- ✓ When using any of the tools around hard-to-reach spaces and / or elevated work areas, **always make sure to keep proper footing** and be careful to not overreach.
- ✓ Keep the moving parts of the telescoping handle and the claw in shape by applying WD-40 type lubricants and oils on a regular basis.

We have vowed to treat every customer like we'd treat our mom...on her birthday, no less. So if there is an issue with your magnetic pick-up tool set, or you have some questions, let us know at wecare@nocry.com, and we'll get back to you within 24 h at the latest.

HOW DO YOU LIKE YOUR NEW MAGNETIC PICK-UP TOOL SET?
